

As previously advised on this forum we signed up earlier this year to an electricity tariff generated solely from Biomass fuel.

The benefits of such a fuel are detailed on the attached down-load from our Supplier's website

Internally - We look to reduce the volume of paper still used in our Recruitment, Invoicing & Financing processes. Recent initiatives have resulted in a 25% reduction in the number of pages printed by live contract since the end of 2014. The paper we purchase is either recycled or sourced from sustainable forests but we aim to strip out as much of that paper from our processes as possible, and there are various initiatives in train to reach that goal.
